

Demo test. Free form exercise. Page 3.

Which of the following statements (11-16) are true and which are false? For questions 11 to 13, look at Picture 5.

11. The audio files you can link to presentation frames must be in 'mp3' format.
12. The 10_Q slide show video player is compatible with all video file formats.
13. No transition effect will precede the opening of Frame 8.

Presentation frame: 8 Extra features

These will make a frame more engaging and appealing: the Unfold feature; an audio clip; a video clip (mp4, m4v, mov, f4v, 3g2, or flv); links to content files, a website, and an exercise from a related 10_Q test; a background image, transition and animation effects.

- ✔ An 'mp3' audio file:
- ✔ A video file:
- ✔ Available exercises: Add a link to Ex. No:
- ✔ An image (in 'png' or 'jpg' file format) to use as a background:
- ✔ A link to a website: ✔ Transition effect (1-60):

Picture 5

14. The images used as a frame background appear and disappear with a slight 'wipe' effect.
15. 10_Q tests and presentations are saved as Word document files.
16. Formatting, such as new lines, may be lost when pasting word-processed text in the text editor windows of the test section.

For questions 17 to 20, look at Picture 6. Use a single digit to answer these 4 questions about object animation effects.

STEPS						Animation						
TF1	TF2	TF3	TF4	TF5	TF6	Im1	Im2	Im3	Im4	TF	Im	Effect
1		1	1	1	1			1	1	1		8
2		2	2	2	2			2	2		3	0
3		3	3	3	3			3	3	4		0
4		4	4	4	4			4	4		4	9
5		5	5	5	5			5	5	6		5
